

# Eric Böhmert

## Personal Information

- **Email:** ebohmert@gmail.com
- **Phone:** +27780730621
- **LinkedIn:** [linkedin.com/in/ericbohmert](https://www.linkedin.com/in/ericbohmert)
- **Languages:** English (fluent), German (conversational), Afrikaans (conversational)
- **Citizenship (Dual):** Germany and South Africa
- **Address:** Kantstr. 3, Berlin, Germany (from January 2026),  
10 Hofmeyr Street, Stellenbosch, South Africa (until December 2025)

## Summary

I am a highly ambitious BSc Computer Science graduate seeking to apply my technical skills in either a start-up environment as I am fascinated by the innovative and entrepreneurial mindset needed and also a corporate set-up, working in a highly focused team. Ultimately, I want to learn while knowing that I am contributing to impactful projects. I am currently looking for an Intern/Working student position from February to September 2026, a period I have dedicated to gaining practical experience before pursuing my Master's degree in Germany.

## Education

### Bachelor of Science: Computer Science

- **School:** University of Stellenbosch, South Africa
- **Expected Graduation:** December 2025
- **Compulsory Coursework (Average: 77%) :**
  - Databases and Web Centric Programming: **84%**
  - Software Engineering and Program Design: **81%**
  - Data Structures and Algorithms: **81%**
  - Computer Networks: **77%**
  - Concurrency: **62%**
- **Elective Coursework:**
  - Machine Learning
  - Mathematical Statistics (Statistical Inference and Linear Models)
  - Operations Research (Optimisation and Decision Modelling)

### Highschool:

- **School:** Somerset College (Somerset West, South Africa)
- **Matriculation:** November 2022

- **Final Average:** 86.2%, with 8 distinctions.
- **Notable Final Results:**
  - Mathematics: **94%**
  - Information Technologies: **91%**
  - Further Studies Mathematics (Calculus): **90%**
  - German (Second Additional Language): **89%**
  - Further Studies Mathematics (Statistics): **87%**

## Technical Skills

- **Programming Languages:** Python, Java, C, SQL, R, JavaScript
- **Web Development:** HTML, CSS, React, Node.js, Express.js
- **Machine Learning Libraries:** Scikit-learn, Pandas, NumPy

## Experience

**Software Developer Intern** | Octoco, Stellenbosch | *May 2024 - June 2024*

- Worked with a small team on Phase 2 of a company project.
- Designed and built React pages and components that gave access to optimal data flow within the application.
- Setup the Firebase authentication system.

**Bartender** | Bartinney Wine & Champagne Bar, Stellenbosch | *March 2023 – May 2023*

- Managed all aspects of bar service, including mixology, cash handling, inventory management, and maintaining a premium customer experience.
- Delivered customer service to a diverse clientele both during standard daily operations and private events.
- Collaborated with a small team of staff to maintain operational efficiency.

## Awards and Achievements

- Accepted into Mensa South Africa
- Invited to join Golden Key Honours Society (Top 15% in the Faculty of Science)
- Accepted into the Computer Science Honours Program at Stellenbosch University

## Extracurricular Activities

- Long-distance running & swimming
- PADI Open Water Diving Certification
- Member of the Stellenbosch University Developer Society
